11. **Risk of loss of confidential technical knowledge:** Our competitive advantage is heavily dependent on our proprietary technical knowledge, which includes trade secrets, assembling and manufacturing processes, and other confidential information critical to our operations. The unauthorized disclosure or misappropriation of this technical knowledge could significantly erode our competitive position in the market. If we fail to adequately protect this information, whether through lapses in internal controls, breaches of confidentiality agreements, or cybersecurity incidents, it could lead to the loss of valuable intellectual property.

12. **Risk of technological advancements in railway propulsion and power electronics systems:** Our business operates in a technology-driven environment where developments in railway propulsion systems, power electronics, control systems and energy efficiency standards continue to evolve.
